

Ivan poem 22 04 2020

A terrible thing is happening today
A terrible plague that won't go away
Corona virus is the trouble
Increasing at the double
People all over in isolations
Not just here but all the nation's
Family and friends separated
Till the worst has abated
Doctors and nurses second to none
Taking risks till all is done
Unfortunately, it all takes time
Don't break the advice that's a crime
Don't think it can't happen to you
Listen to experts who give you their view
We've seen the action of all volunteers
So clap for nurses and doctors, three cheers
Thank you for Neighbours who do there all
Who Shop for medicines and give them a call
Big thank you National health pharmacy, surgery too
For each and everyone have a lot to do
Please don't dismay time will tell
We are a country that deals with problems very well
The last 2 wars it wasn't too long
By guts and hard work we soon were strong
To those who are ill send healing
Amen
